EXECUTION TIPS These help your people start strong and keep the offer duplicating.

Go Where the Attention Is

Drop short threads on X, reels on Instagram, shorts on TikTok — attention stacks fast when the message is hot.

Let the System Sell Itself

The VSL is built to do the heavy lifting. Your job is to drive curiosity and get people to click.

Don't oversell — point and let it play.

Show, Don't Tell

Use screen shares or voiceovers showing you walking through the funnel. Say things like:

"This is the system I plugged into... and this is why I think it's genius.

"

Authenticity + clarity wins.

Always Use Your Affiliate Link

Don't drop naked links to the homepage. Make sure your affiliate link is saved in the platform and you're tracking your referrals.
